

**The feature packed P30C plasma cutter** features an 8mm genuine clean cut.

The P30C comes with a six metre torch as standard with long-life consumables. The digital display allows for accurate control of cutting power.

Just add a supply of compressed air and you can be cutting easily and accurately in seconds.

The P30C requires a 240v 13 Amp input.

Our complete package includes a 6M Plasma Cutter Torch, Earth Lead, Air Pressure Regulator and PCL fitting, Mains Cable, Owners Manual and a Torch Consumables Kit including tips, electrodes, gas distributors and shield cups

## PLASMA CUTTER (240v)

This handy, portable Plasma Cutter cuts cleanly and easily through any metal. With long-life consumables and the ability to run from a 13a plug the P30C is a must for any workshop or fabricator.

### At a glance

- 12mm severance cut on steel
- HF start for easy arc starting
- High 35% duty cycle
- 1 year warranty
- Just add compressed air

### Applications

- Maintenance
- Light Fabrication
- Automotive
- Craftsman/Professional
