

The feature packed TIG160PDC is a class leading DC [TIG welder](#) that will weld all types of steel and is suited to almost any environment and any job.

Featuring High Frequency Arc Starting, a 35% duty cycle, pulse welding, slope up and slope down and trigger latching.

With a four metre torch as standard and the ability to weld from just 5 amps this welder can be used for intricate and detailed work as well as general fabrication.

The TIG160PDC requires a 240v 13 Amp input.

Our complete package includes an 4 Metre WP17 TIG Torch, Earth Lead, MMA Lead, Gas Hose, Mains Cable, Argon Regulator, Owners Manual and a Torch Consumables Kit with Tungstens

PORTABLE TIG WELDER (DC)

With an impressive list of features and specifications, this ultra portable TIG welder is easy to use and produces a high quality finish. Use anywhere with a 13a supply.

At a glance

- Pulse welding for greater control
- HF start for easy arc starting
- High 35% duty cycle
- Runs from a 13a plug

Applications

- Maintenance
- Light Fabrication
- Automotive
- Craftsman/Professional

TECHNICAL SPECIFICATIONS

TIG Output @ 35% duty cycle	160 amps
MMA Output @ 35% duty cycle	125 amps
Required Input (TIG)	240v 13 amps
Pulse Welding	yes
Pulse Frequency Range	0.5-25Hz
HF Start	yes
Slope Up/Slope Down	0-5 seconds
Gas Post Flow	1-10 seconds
2T/4T Trigger Operation (trigger latching)	yes
Generator friendly recommended size (with AVR)	5 KVA
LED Actual amperage display	yes
Cooling Fan with Thermostatic Protection	yes
Industrial Quality Metal Chassis	yes
Dimensions (mm)	425x195x310
Net weight	13kg

This TIG welders comes with a one year return-to-base warranty
