

EC3600

3600W Open Frame Generator

Extended run time

Generating a maximum output of 3600W, or an extended run time of up to 2.9 hours at rated load on a single tank of fuel.

Superb reliability

Legendary durability from Honda's commercial grade OHV series 4-stroke engine offers easy starting every time.

Oil Alert®

Prevents engine damage by automatically shutting the unit down if the oil drops below a safe operating level.

Rubber engine mounts

Greatly reduce operating noise and vibration whilst maximising frame life.

Dual 115/230V output

Ideal for running 110V power tools or standard 240V appliances.

Circuit breaker outlets

Avoid equipment damage and injury in the event of a short circuit.

Durable frame

High quality welded and powder coated tubular steel frame for extended durability, easy lifting and light weight.

Optional kits

Transport wheels and hanger kit available dependent on model.

The EC3600 generator is designed to give you an economical, simple to use and incredibly reliable power source wherever you need it. Just like our renowned engines, this unit is engineered to withstand the harsh demands of the construction industry. The super durable Honda OHV series engine is housed within a high quality welded open frame of powder coated tubular steel for easy lifting.
