SKU: MIG-MTS-255S

250amp Synergic MIG/TIG/ARC Welder 240V

The MTS255S is a multi-process synergic MIG, TIG and arc welder capable of welding at 250amps in MIG & TIG and 200amps in MMA mode.

- Synergic MIG for easy setup, simply select wire type, diameter and power required and the machine automatically adjusts wire feed speed.
- Digital control panel for easy adjustments and memory store for up to 9 jobs.
- Comes with MB25 MIG torch, 4m WP26 TIG torch, earth lead, mains cable, gas hose, gas regulator, torch consumables kit and owners manual.
- Perfect for fabrication, maintenance and automotive welding.

WHAT'S IN THE BOX?

3m MB25 air cooled MIG torch, 4m WP26 TIG torch, earth lead, gas hose, mains cable, gas regulator, owners manual and torch consumables kit.

TECHNICAL SPECIFICATIONS

Output @ 35% duty cycle MIG/TIG	250amps
Output @ 35% duty cycle MMA	200amps
Required Input	240V 32amps
Euro style torch	Yes
Adjustable arc force - controls splatter	Yes
Generator friendly recommended size	10kVA
LED amperage/voltage display	Yes
Welding Range MIG	25-250amps
Reel capacity	5kg
Wire width capacity (Steel)	0.6, 0.8 & 1.0mm
Wire width capacity (Alloy)	0.8, 1.0 & 1.2mm
Roller size (fitted as standard)	0.6/0.8/1.0mm
Dimensions (mm)	560x230x420
Net weight	25kg

9mm Max Weld

Welds Steel

Takes 5kg Reels

Digital Panel for Full Control
