

YAHANDA

D28 3D Flexible & Modular Welding Table

Technical Data

Size	2000mm x 1000mm x 200mm
Total height	800 – 850mm (Adjusting range: 50mm)
Weight	635kg
Material	2311 Tool steel (Annealing)
Table thickness	25±1 mm
Hole pitch	100±0.02mm (tolerance between any two holes)
Grid pattern	100mm x 100mm
Hole diameter	28mm
Flatness	≤0.10mm/m ² (Table surface tolerance)
Perpendicularity	≤0.1mm/m (Tolerance of top surface and side surface)
Parallelism	≤0.10mm/m (Tolerance between top and bottom surface)
Surface roughness	≥Ra1.6, ≤Ra3.2
Reinforced rib design	
Surface treatment	Nitriding
Resistant to wear, corrosion, abrasion and scratching	
Hardness rating	HV450 – 550 Vickers
Chamfered edges, corners and boreholes	
Measurement scale	(mm) on two sides
Number of support legs	4 (standard)
Uniformly distributed load (UDL)	2500kg/m ²
Max loading	5000kg
Central concentrated load (CCL)	1600kg/m ² , Max deflection ≤0.3mm

Precision machined 3D Welding table fixture with 5 working surfaces (1 top + 4 sides) improves precision and efficiency for welding and fabrication of steel fixtures

D28 system for 28mm clamps and accessories

Wide range of accessories available

Order Code: WS-YHD28S2010N
